CPC for Transport Managers (Passenger Transport)

system training

Who is it for?

It is a legal requirement that businesses holding a Standard Public Service Vehicle Operator's Licence employ a professionally competent individual to effectively manage their transport operations.

The Level 3 Certificate of Professional Competence (CPC) in Passenger Transport is designed for individuals who aspire to work as a Transport Manager, or for owner operators wishing to satisfy the Traffic Commissioner in demonstrating their capability to meet Operator Licensing requirements.

Duration

10 days

"System Training is at the forefront of not only providing knowledge, but also equipping candidates to apply this, forming a practical basis for successful transport management."

Alan Graham

Fellow of Chartered Institute of Educational Assessors

The course

Interactively delivered by our highly qualified, specialist tutors, the CPC in Passenger Transport allows learners to obtain the expert underpinning knowledge and skills required to competently manage a transport operation in compliance with legislation.

The course specifically covers:

- Contract law
- Business structures
- Financial management
- Health and Safety and Social Legislation
- Operator Licensing
- Drivers' hours and record keeping
- Maintenance
- Waybills
- International services
- Timetabling
- Tendering
- Package travel regulations
- Customs and transit systems
- Permits and methods of operating internationally

On completion, individuals will attain an OCR certificate evidencing their ability to apply relevant, up-to-date, professional awareness to transport operations in any EU member state.
